A MONTHLY UPDATE OF PARTICIPANT HAPPENINGS

## Going Out and About

### WHAT AN EXPERIENCE! 'RASS TOOK A TRIP TO THE EARTHQUAKE EXHIBIT AT THE CA SCIENCE CENTER

So much to do at the California Science Center. The Earthquake Experience Exhibit was important for our participants to experience as we focus on earthquake preparedness at the 'RASS program. We watched an informative video on how to be safe during an earthquake. They experienced firsthand, the shakes of an earthquake and without a doubt were rattled around. Ruby V. returned to program shouting, "I got to feel a big earthquake." We will definitely be returning to the Science Center this summer!

When Lead Instructor Billie M. had a class on different predators of the amazon forest, a few of the ADC participants requested to see a Python snake. So, Instructor Denise Y. took her group of adventurous participants to visit the Amazon Reptile Nature Center. Delfi M. was excited to get a close look at a beautiful yellow ball python.

Participants in IECBS took a day off from volunteering to enjoy a day of relaxation. When asked where they would like to go, Patrick, Miranda, Samuel, Jonathan and Brock (not in photo) agreed it would be a great day to head to the beach. Nice way to spend the day, but back to volunteering tomorrow.

We're lovin' it! 'RASS participants went on an adventure to the original McDonald's Museum. They were thrilled for the chance to observe the artwork and collectibles that have been sold over the years. A McDonald's expert greeted them and shared the secrets on how they make their burgers and fries so tasty and delicious. The group was definitely excited and ready for lunch after this trip!

## POWER OF THE FLOWER FAMILY FUN FESTIVAL
