

the ANTHESIS BULLETIN

DECEMBER 2020

A MONTHLY UPDATE OF PARTICIPANT HAPPENINGS

It's been a bittersweet move, however, Anthesis has officially moved locations! **1063 W. 6th Street** in Ontario is Anthesis' new home and all the staff here have been busy unpacking to continue providing support to our programs. The move was highly anticipated and we thank everyone for their patience while we continue to get settled here at the new homebase. We can't wait to continue investing in our individuals by providing efficient services from Anthesis' new location. Please remember to update our address accordingly and we look forward to continue serving you from our new place of business.

Cecilia O. from ADC worked hard on putting together and coloring her candy corn activity. Cecilia enjoys being able to share her activities and crafts with her family. After she completed putting together her candy corn activity, she was able to share her project with her family through Zoom.

Amy T. from ADC had a great time making her pancakes from scratch with help from instructor, Natalie R. Amy was able to measure all her own ingredients and follow a recipe to create her pancakes. Amy was very careful to make sure that they were in a perfect circle and patiently waited for them to turn a perfect golden brown on each side.

Marianna C. from ADC got crafty as she finished up making a very scary and cute monster for her upcoming, Monster class. To make her monster, Marianna used a paper bag and decorated it with googly eyes and construction paper. Marianna was very excited to show off her monster to her sister and friends on Zoom.

A FEW WORDS WITH STEVEN F., SUPPORTED EMPLOYMENT PROGRAM

Thanks for the great interview, Steven!

Q: Tell us about yourself.

A: My name is Steven. I am 41 years old. I know a lot about cars. My favorite kind of car is a Honda Accord.

Q: How long have you been part of Anthesis' Supported Employment Program?

A: I've been part of Anthesis for a very long time. Since 1998.

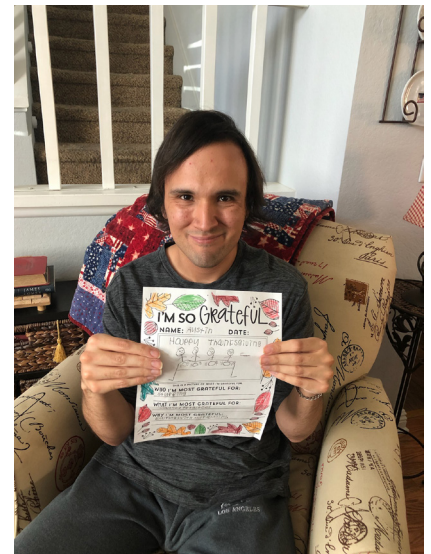

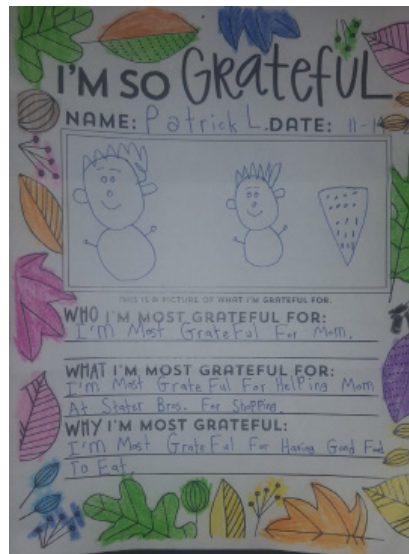

Q: How has Anthesis impacted your life?

A: Anthesis has given me many opportunities with learning about various machinery and parts as I have had opportunities working in the Yard Crew and DoubleTree Hotel. My opportunities have helped me be more comfortable with being social and has helped me come out of my shell.

Q: What do you like to do in your spare time?

A: For fun I like to work on lawnmowers. I enjoy fixing things. I learn how to fix different things through watching tutorials on YouTube.

ANTHESIS IS SO GRATEFUL FOR OUR WONDERFUL PARTICIPANTS!

This November, many participants from various programs participated in the "I'm So Grateful" Activity. It was incredibly heartwarming to view all of the activities that were sent in. Nicole R. from ADC is seen here holding up her activity, which states that she is most grateful because her staff, friends, and family help her to be successful. While Patrick L. and Austin B. from the Transition Program both advocate that they are most thankful for their families. The staff here at Anthesis are so grateful for all the participants and hope that you all had an amazing Thanksgiving!

Holiday Closures

THURSDAY, DECEMBER 24TH
FRIDAY, DECEMBER 25TH

FRIDAY, JANUARY 1ST
